WINNEBAGO "ONE"

YOUR INTRODUCTION TO
THE ALL NEW TOWABLE LINE FROM
WINNEBAGO INDUSTRIES
TOWABLES

THE NEW **WINNEBAGO "ONE"**

---The return of an iconic name!---

Nearly 30 years have passed since the last Winnebago travel trailer left the plant in Iowa and headed down the American highways. Since then, Winnebago has focused on producing superior motorized products and has made the name "Winnebago" synonymous with the modern day motorized recreational vehicle.

Above is an example of the popular "Mini Winnie", vintage 1960s.

In December 2010 it was announced that Winnebago Industries would soon return to the towable segment of the market. Extensive research and careful consideration by the Winnebago Management Team concluded that this ground breaking venture should be located in Elkhart County, the heart of the RV Industry. Winnebago Towables is now located in Middlebury, Indiana and building the most exciting product to hit the market in years, the...

EXTERIOR FEATURES

TOWABLES

~EXTERIOR FEATURES~

.....

#1 Slam Latch Baggage Doors

These baggage latches use keys that are uniquely keyed to each latch unlike the universally keyed latches used by other manufacturers. Opening and closing your compartment doors just became more convenient and secure. Yes, those doors are 1" thick!

#2 Large Pass-Through Storage

We know you want to take all the gear needed to make your camping experience a good one and you want it to be easy to access.

#3 Diamond plate front travel guard

We help you protect your investment by installing a metal diamond plate travel guard on every unit.

#4 Twin 30# LP Bottles

You will look forward to an extending your camping experience with two large 30# LP tanks that come with standard cover. A work light at the front of the trailer is there to make your activities safer and easier at night!

.....

~EXTERIOR FEATURES~

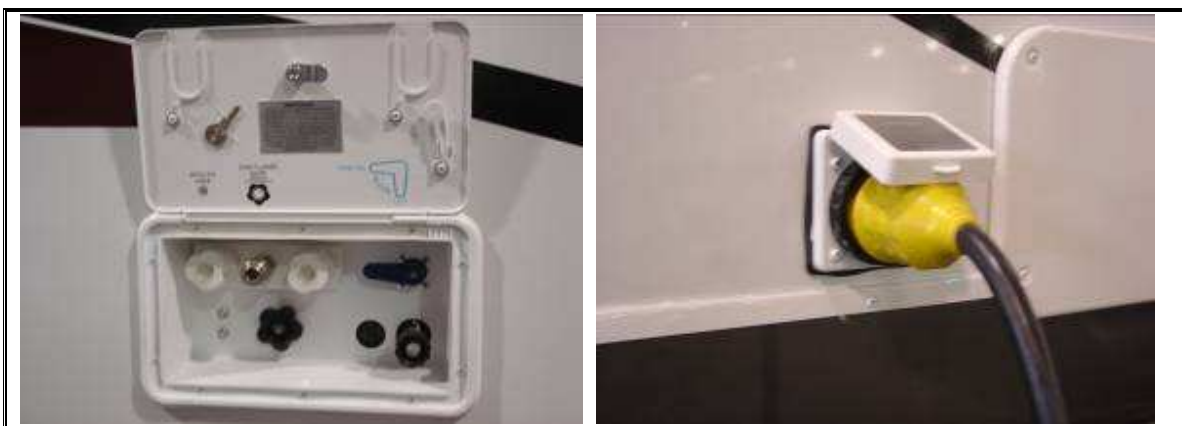

.....

#5 Enclosed Outside Shower with Water Hook-Ups

With a quick turn of a knob, the water management system with fresh water vacuum pick-up fills your potable water in a snap. Standard features also include a black tank flush and outside shower.

#6 Detachable 30 Amp Power Cord

Handling and storing a detachable cord is much easier and more convenient than wrestling a dirty, wet or stiff from the cold cord into a small hole in the side of your trailer.

#7 Aluminum Wheels and Metal Fender Skirts

Our aluminum wheels look great and feature E-Z-Lube axles. Keeping your hubs lubricated is a breeze. You never have to worry about a cheap plastic fender skirt cracking and flapping in the wind!

#8 Radial Tires filled with NitroFill

Radial tires will give you longer service life than the typical bias ply tire you find on most travel trailers. All our tires are filled with Nitrogen to give you cooler running temperatures, longer tread life and safer travel from your tires.

.....

~EXTERIOR FEATURES~

.....

#9 Triple Steps

Getting in and out of your travel trailer should be safe and easy. Three steps are better than two.

#10 Folding Assist Grab Rail

Our extra large grab rail folds back and out of the way during travel and swings out for camping convenience.

#11 Extra-Wide Entry Door

Our entry doors are 30" wide making it easy to get in and out with an arm full of groceries or other camping essentials.

~EXTERIOR FEATURES~

.....

#12 Tinted Safety-Glass Jalousie Windows

You will be much more comfortable knowing you can open your jalousie windows even when it is raining. The 80% tint with UV inhibitors will protect your fabrics and help keep temperatures down even on the brightest days.

#13 Enclosed Gate Valves and Heated Underbelly

We enclose our underbelly and direct warm air from the furnace into this area. We also use remotely activated gate valves so we can keep these important components protected from freezing. You will enjoy better aerodynamics while traveling, warmer floors during cold weather camping, extended camping seasons and protection for the plumbing and wiring located in the underbelly area.

#14 Heavy-Duty Stabilizer Jacks

We use a heavy-duty stabilizer jack that will keep your trailer from rockin' and Rollin'. This type of stabilizer jack is much stronger than many other types used by others.

~EXTERIOR FEATURES~

.....

#15 Marine Grade Exterior Speakers

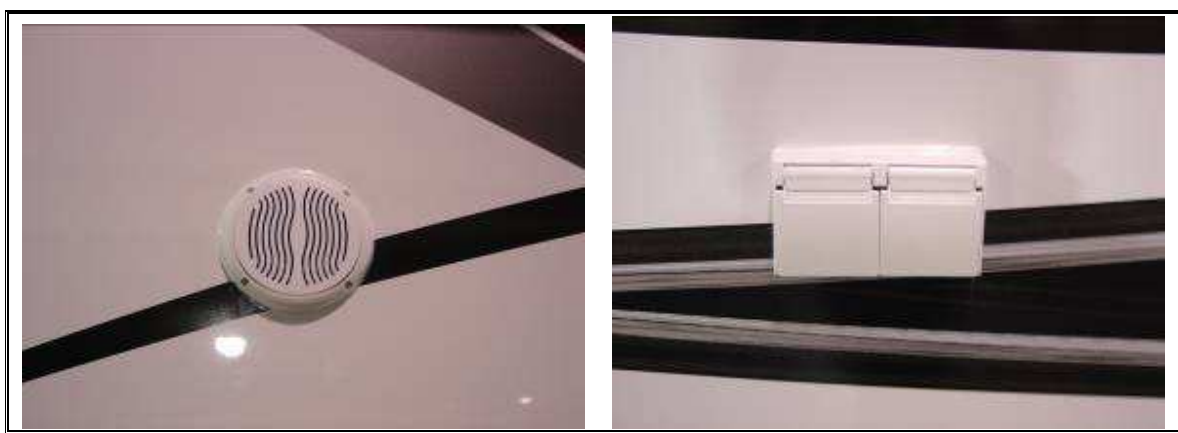

Two marine grade exterior speakers are connected to your AM/FM DVD CD player. This makes listening to your favorite recording artist or radio program while enjoying the campsite a reality.

#16 Ground Fault 110 volt Outlet

We have conveniently equipped all our units with a GFI 110v outlet on the campsite side of the unit.

#17 Off-Door Side Security Light

A bright security light on the off-door side is there when you need it.

#18 Real Fiberglass Gel-Coat Exterior

Our exterior is a “True” fiberglass gel-coat product, like a boat!

~EXTERIOR FEATURES~

.....

#19 42" Deep Slide Rooms with Walk-On Roof

Not only are our slide rooms as deep as any in the industry, we also manufacture the slide rooms to be strong enough to walk on.

#20 Easy Access Slide Room Override

Our slide rooms are powered by the finest electric slide systems in the industry. Should you ever need to extend or retract your slide room manually, the access to the slide room over-ride is easy to find and to use. No getting on your back and crawling under the unit to manually retract your slide.

~EXTERIOR FEATURES~

.....

#21 Power A&E Awning

Enjoy the convenience of our A&E awning. One touch of the button and your awning is in or out in seconds. No longer will you be out in the middle of the night wearing PJs and putting up an awning in the wind and rain. Our awning is also self-faced, meaning the underside has the same colorful design as the top. No need to worry about accumulating water on your deployed awning. We have a self-dumping feature that drains off that rain water.

~EXTERIOR FEATURES~

.....

#22 Industry first aerodynamic front profile

Our engineers incorporated a new front profile designed to manage the turbulent air flow between the tow vehicle and the trailer. This design reduces wind drag and makes towing much more enjoyable.

~INTERIOR FEATURES~

KITCHEN

.....

#1 Look at the counter-top space!

We understand how important counter space is to you. We build huge counter-top spaces into our *Winnebago One*.

#2 Stainless steel sink with sink covers and pull-out faucet

The ease of cleaning stainless steel helps you keep your kitchen looking fantastic. Our sink covers double as cutting boards and the pull-out faucet is great for easy clean up.

~INTERIOR FEATURES~

KITCHEN

.....

#3 Standard three-burner range top with oven and Piazzo igniter

All the conveniences of home, you will not run out of cook-top space and having this large oven will make preparing your finest meals a reality.

#4 1.5 cu. Ft. microwave

For those times when you want a quick meal or a hot cup of coffee in a hurry!

~INTERIOR FEATURES~

KITCHEN

.....

#5 Plenty of storage including coat/broom closet and pantry

We design every unit to take full advantage of all the space available. In most floor plans you will find a coat/broom closet and a full pantry.

~INTERIOR FEATURES~

KITCHEN

.....

#6 Spacious drawers with full extension ball bearing roller guides

Our furniture grade birch plywood drawers glide wide open on steel ball bearing roller guides revealing the very back of each drawer. You will be able to use the entire drawer without digging.

#7 Customized command center

Control your awning, slide rooms, interior and exterior lights and monitor your holding tanks all with a touch of your finger.

~INTERIOR FEATURES~

LIVING ROOM

.....

#8 Unique sectional furniture

We optimize our use of space with uniquely designed furniture that is both beautiful and comfortable.

Sectional sofa out position

Sectional sofa in position

~INTERIOR FEATURES~ LIVING ROOM

.....

Sectional sofa with the bed made

#9 Large windows and abundant over-head storage

Natural lighting is key and our oversized windows bring the outside in! Extra storage is provided with over-head cabinets that are large enough for full sized plates. Check out the great looking slide out fascia!

~INTERIOR FEATURES~ LIVING ROOM

.....

#10 Industry leading entertainment area loaded with features and extra tall slide rooms

You will find the entertainment center in our 30RE stands head and shoulders above any other in the market. We give you a list of features and options your customers will fall in love with. The extra tall slide rooms make this space feel wide open.

TOWABLES

~INTERIOR FEATURES~ LIVING ROOM

.....

#11 Decorator lighting and abundant electrical outlets (bottom left) The decorator wall scone lighting adds a touch of elegance to the entertainment area and two 110v outlets are really handy.

12 Our exclusive hidden expanding table (above right and below) What a great feature! In several of our floor plans you will find tucked away and out of view, a large tabletop you can use for entertaining, hobbies, laptop computer use or for a relaxing meal.

~INTERIOR FEATURES~ LIVING ROOM

.....

#13 Yes, our LCD TV is retractable

Our 32" LCD TV is hidden away until you need it. Sweet!

~INTERIOR FEATURES~

LIVING ROOM

.....

#14 Arched ceilings

By using arched ceiling trusses, we are able to raise the ceiling height and maintain a lower side wall. This reduces wind drag and improves fuel mileage while creating a residential living feel inside.

T O W A B L E S

~INTERIOR FEATURES~ BED AND BATH ROOM

.....

#1 Secluded Bedroom with Memory Foam Mattress

You will sleep like a baby on the standard memory foam mattress. Our bedroom is also private and secluded because we use solid doors, not curtains.

TOWABLES

~INTERIOR FEATURES~ BED AND BATH ROOM

.....

#2 A large bath room

Our bath room has plenty of storage with a large linen closet and spacious neo-angle shower with glass enclosure. We also give you a porcelain stool that looks great and will flush and flush and flush... ☺
