WARRANTY				
12-month/15,000-mile basic warranty , 36-month/36,000-mile warranty on structure,** 10-year limited parts & labor warranty on roof	S	S	S	S

- The height of each model is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 2' depending on chassis or equipment variations.
- ^ Ultimate Advantage floorplans feature a wide-body design — over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
- ∞ Your motor coach's load capacity is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor coach.
- ◇ Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
- S** Standard
- O** Optional
- *** Not all items available in combination. See dealer for details.
- +** Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to your vehicle's operator's manual for further towing information.
- NA** Not available
- **** See your dealer for complete warranty information.

Winnebago Industries' continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor coaches are based on the most recent information available.
